

Welcome to Week 3.

3/30/2020

Good Morning Geo Students & Parents!

I don't know about you, but it is very odd to not be in school and I do miss interacting with you all 4 times a week. I hope you have been able to establish some sort of routine to help motivate you through the days. It is a little thing, but it does help the time pass by. The rain this past week has posed more of a challenge to my life at home. Outdoor time for the kids has turned into activities in the garage with the door up. We do the best we can! 😊

This week we will be focusing on more Algebra based topics. These are extremely important skills to keep fresh, especially for Algebra 2 next year.

You will find the following posted on the Assignment page:

- 1- Kahn Academy Videos for Parallel and Perpendicular lines (4 videos)
- 2- Envision MathXL 2.4 Reteach Parallel and Perpendicular lines (online software) OR printable version
- 3- Kuta Worksheet with Answers: Equation of a Parallel and Perpendicular Lines
- 4- Kahn Academy Videos for Midpoint and Distance Formula (2 videos)
- 5- 1-3: MathXL for School: Additional Practice (online software) OR printable version
- 6- Kuta Review Worksheet with Answers: Midpoint, Distance, Lines, Triangles

Good luck and please email me with any questions you have!!

Mrs. Gai
